

USING INSPIRATION 8:

This presumes you have the Inspiration 8 Software.

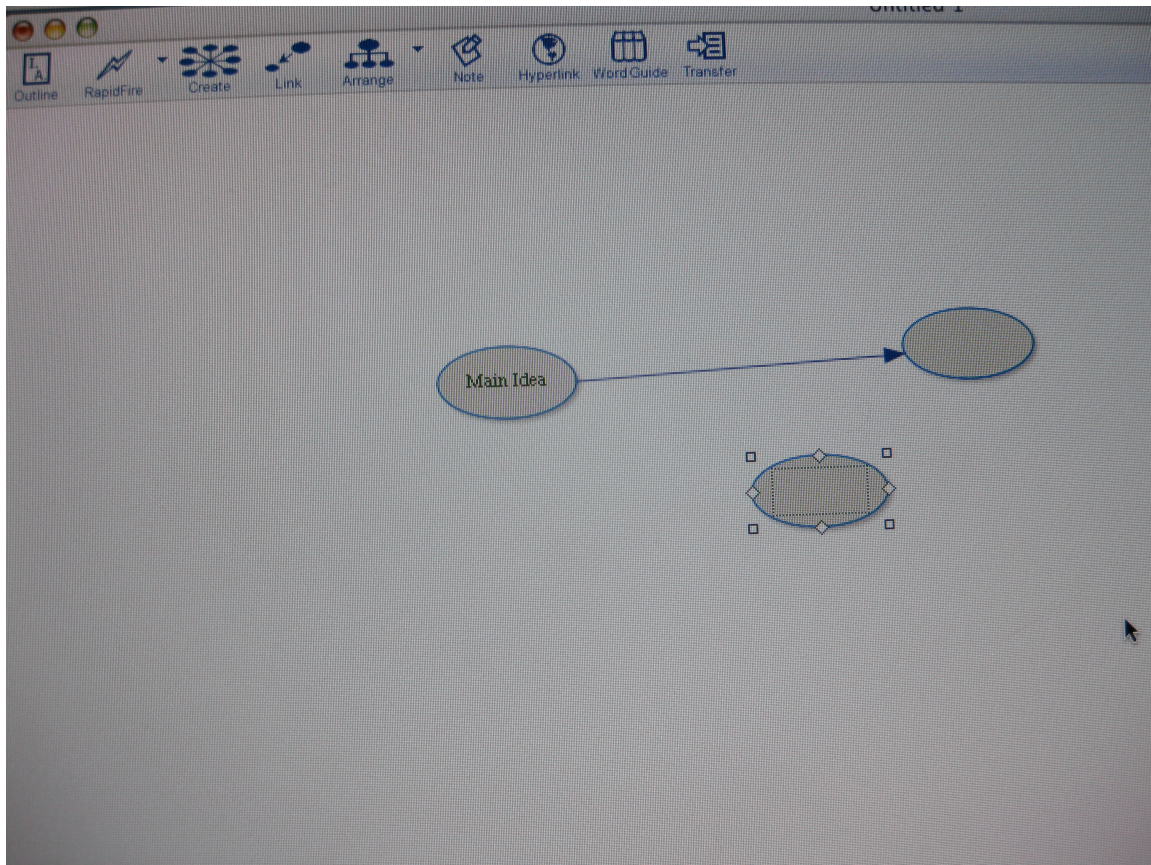

1. Go to Application and Click on Inspiration

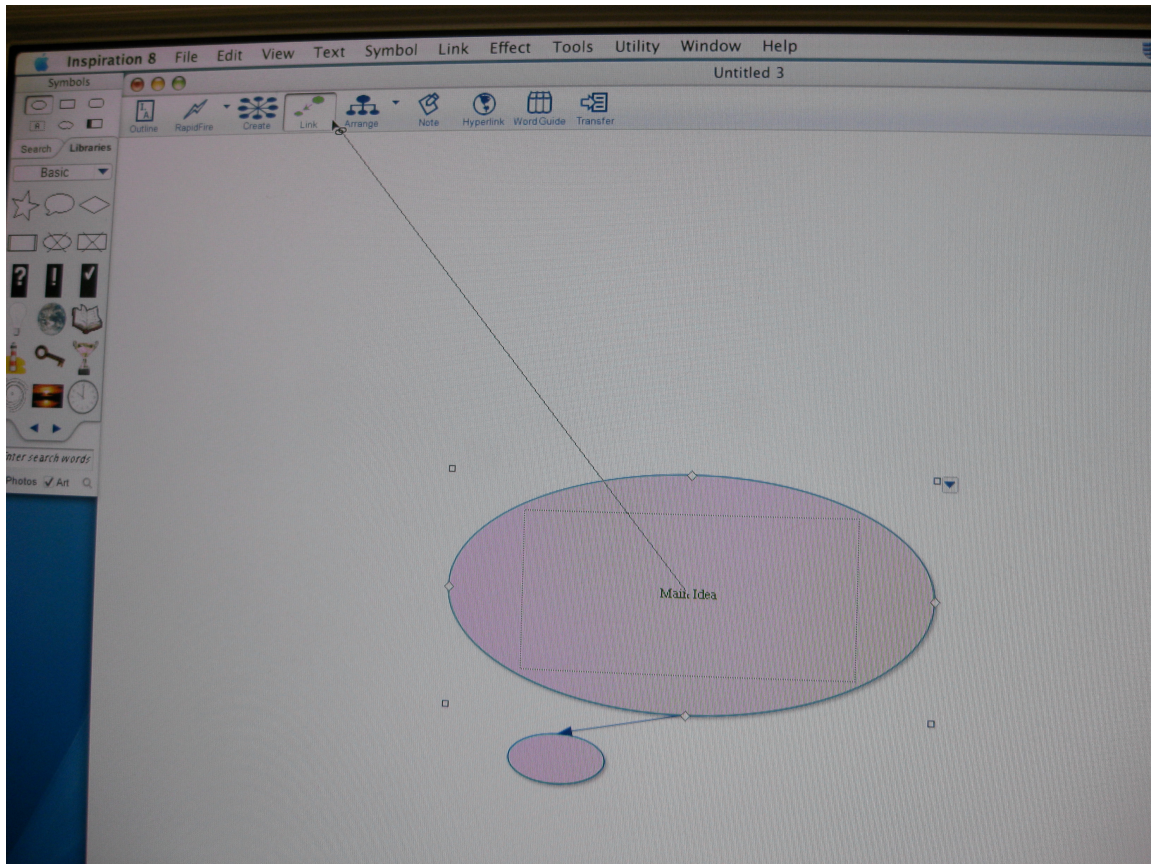

- Select **Diagram**. The diagram bellow appears with “Main Idea” in the middle.

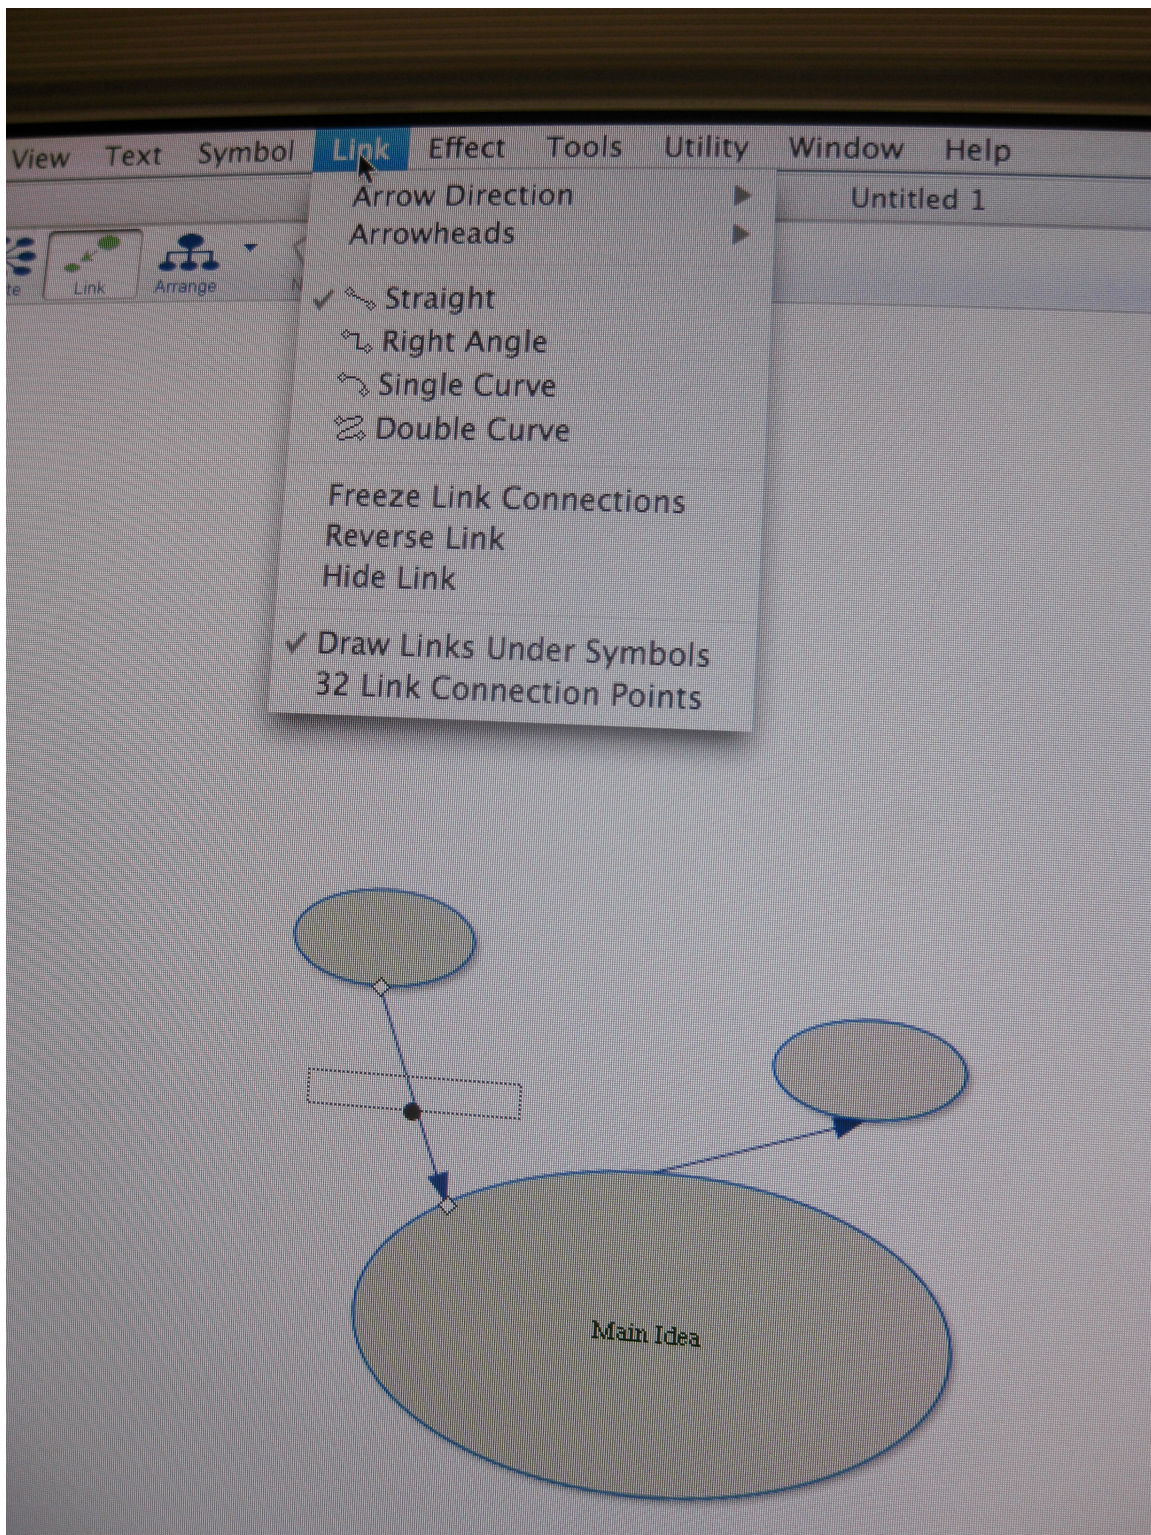

2. Click on **Create** diagram., on the menu bar, to add more diagrams.:
- Click to highlight diagram and once more to type your text inside your diagram.
 - Click and drag to move.

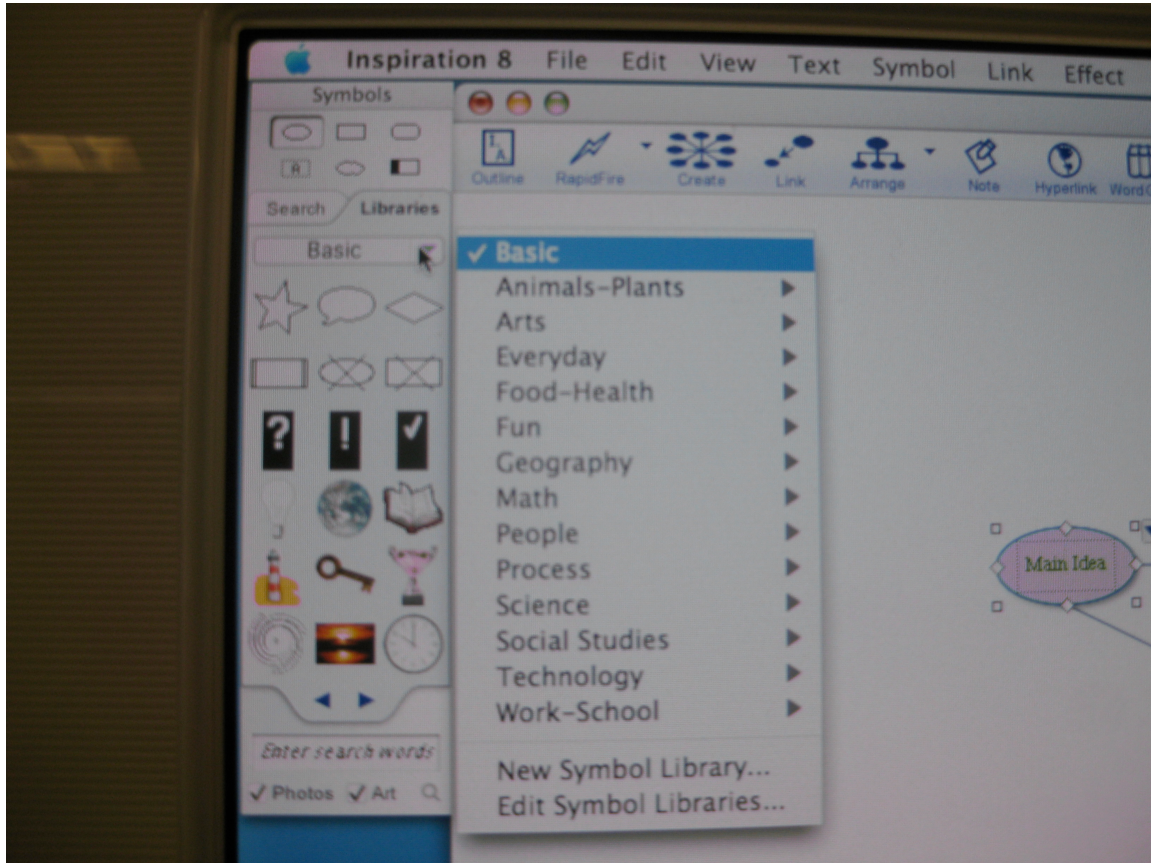

3. Click the **Link** diagram to link your diagrams with arrows.

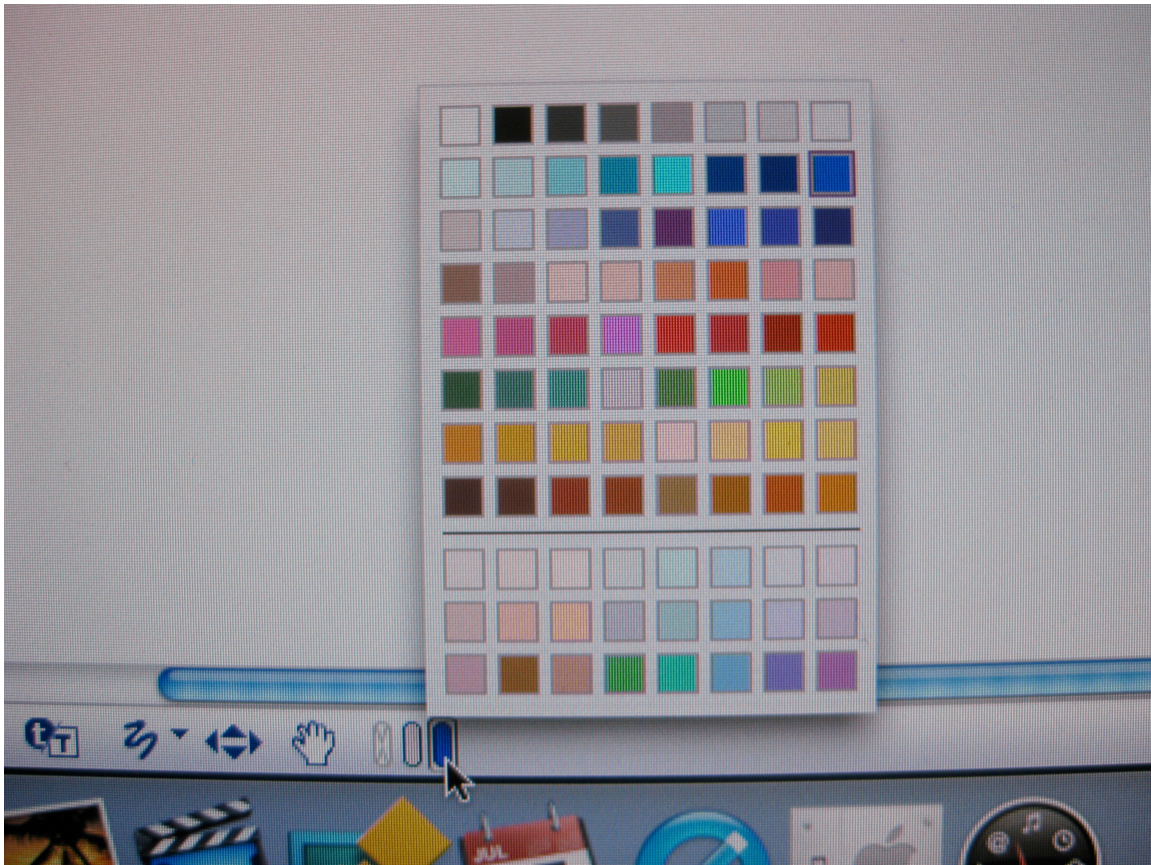

4. Click the **Link** on the drop-down menu to customize your arrows.

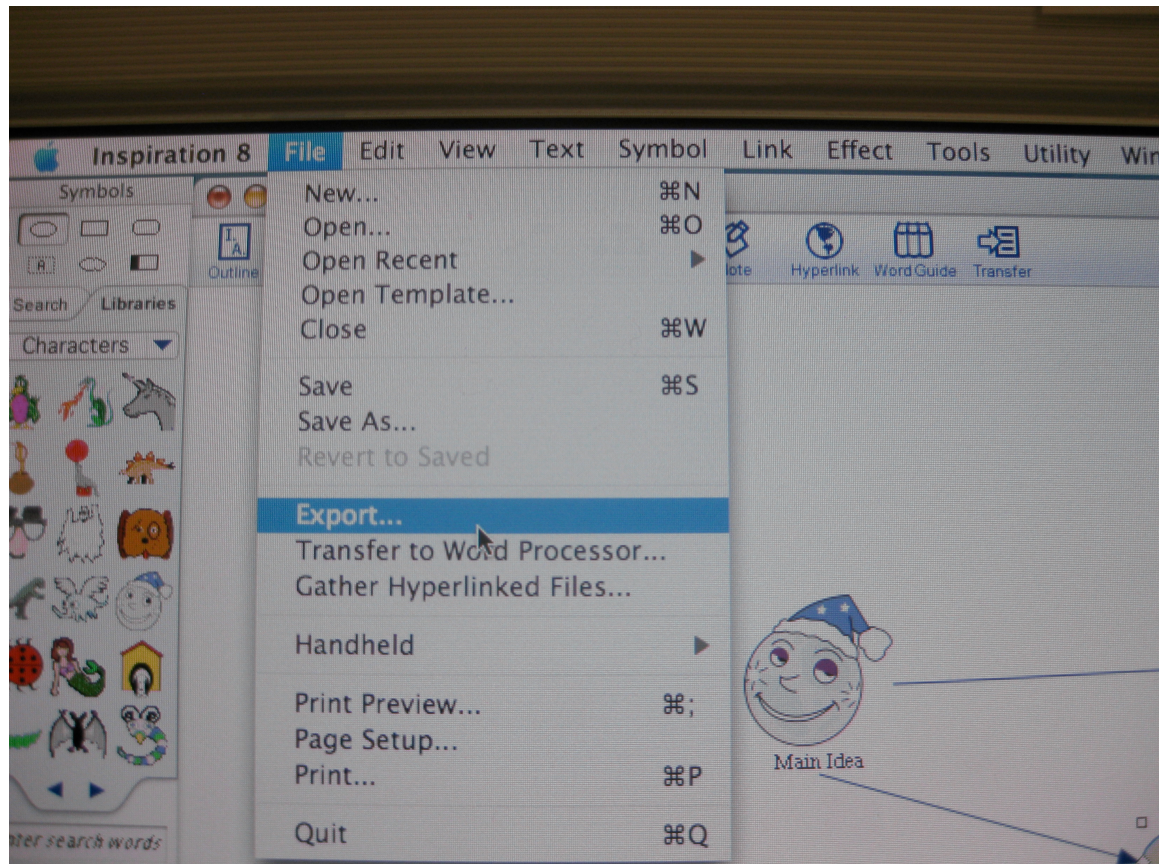

5. Use the **Symbol** dialogue box to change the shape or format of a diagram. Use the **Basic** box within the Symbol dialogue box to transform your diagrams into pictures or images. Use the “**Enter Search word**” box to find specific images/pictures.

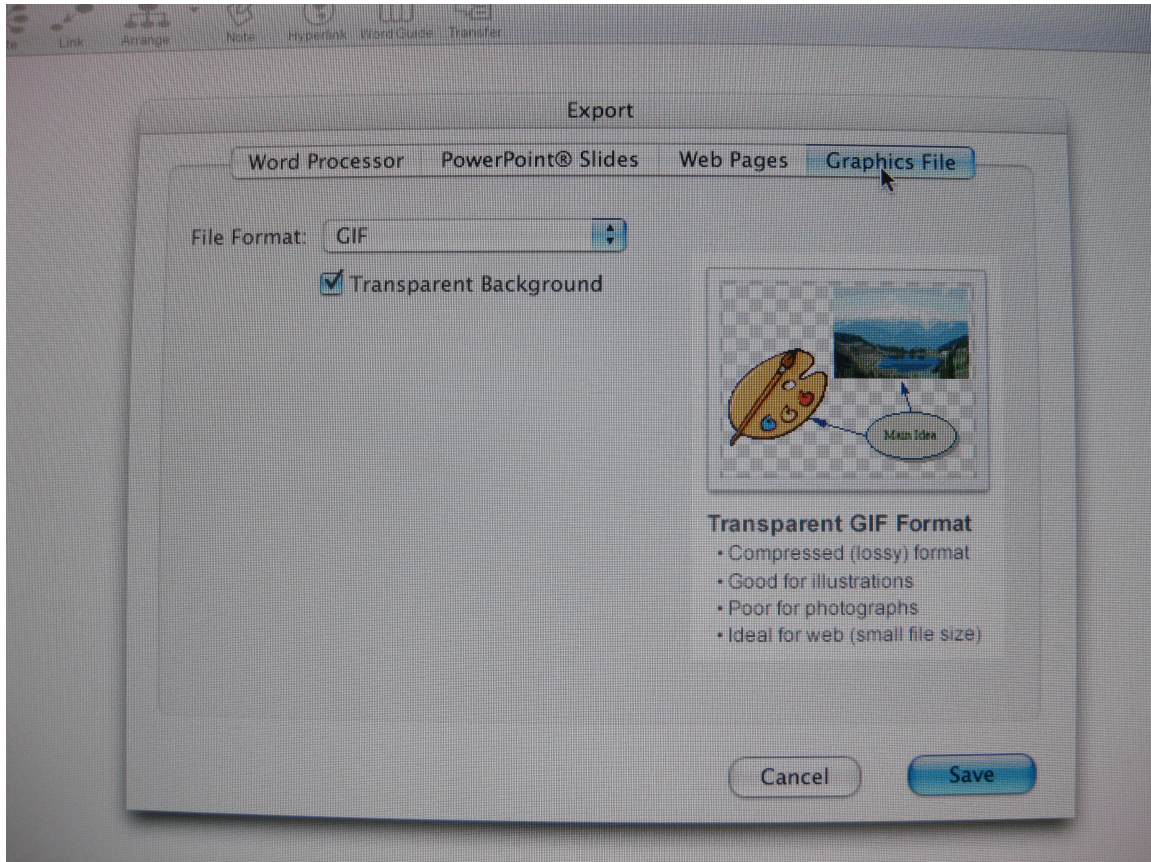

6. Fill your diagram with interesting colors with the spherical color bar bellow (bottom bar).

7. Save your work in Inspiration file format with **File, Save as** option of the drop down menu. Or, save as a picture file with the **File, Export** menu.

- Select **Graphics**, then **JPEG**, then **Save As** in your preferred location.
- it is saved as a picture file.

There are a lot more you can do with Inspiration... just muck around, have fun with it, and you will discover so much more.
